Rhode Island Public Utilities Commission  
89 Jefferson Boulevard  
Warwick, RI 02888

**Re: *Docket No. 22-47-WW- The Narragansett Bay Commission  
General Rate Filing***

Dear Ms. Massaro:

Enclosed please find an original and nine copies of the following:

1. The Narragansett Bay Commission's Supplemental Response to the Rhode Island Division of Public Utilities and Carrier's Data Requests (Set 8).

Please note that an electronic copy of this document has been provided to the service list.  
Thank you for your attention to this matter.

Sincerely,

Joseph A. Keough, Jr.

cc: Docket 22-47-WW Service List (*via electronic mail*)

**Supplemental**

**Response:** At the request of the Division, NBC performed a similar analysis of the Union salaries, which also accounts for NBC’s elimination of some electrician positions, and accounts for NBC’s cost for outside electrical contractors in lieu of these full-time positions. Based on the analysis in the original (revised) response and this new analysis, NBC has also developed a revised rate year request for Union and Non-Union Salaries as is shown in the attached Schedules.

**UNION AND ELECTRICIANS ANALYSIS**

***Test Year average number of Union FTEs:*** The average number of filled Union positions in the test year was 113.75 (See Schedule 8E Supp. – 4.145% Union).

***Interim year average number of filled Union FTEs:*** The interim year average number of filled Union FTEs through April 2023 is 111.90 (please note that the April 2023 FTEs includes the 5 electrician positions as they weren’t eliminated until this month) (See Schedule 8E Supp. – 4.145%).

***Rate year average number of filled Union FTEs:*** While there has been year-over-year growth in the average number of filled Non-Union FTEs for the past five years (See Schedule 8C Supp. – Non-Union FTEs), the average number of filled Union FTEs has changed from year to year. Therefore the attached Schedule 8E Supp. uses a five-year average of filled Union FTE’s for the rate year as follows:

UNION FILLED FTEs FIVE-YEAR AVERAGE	
Fiscal Year	Average FTE
FY 2019	118.50
FY 2020	112.67
FY 2021	114.08
FY 2022	113.75
FY 2023	111.90
Average	<u>114.18</u>

As set forth in Schedule 8E Supp., NBC recalculated its rate year request based on 114.18 FTEs, which results in projected rate year Union salaries of \$6,815,492, which is \$83,902 less than NBC’s rate year amount as filed.

**Adjustment for Elimination of Electrician positions:** Please refer to Schedule 8F Supp. – Union Electricians. The test year Union salaries and fringe benefits are calculated for 4.54 electrician positions (one FTE was hired mid-year). These positions were eliminated in April 2023 of the interim year. One of the positions was reallocated to a Facilities Maintenance Specialist at Bucklin Point. The net reduction in Union salaries and fringe benefits in the rate year related to these positions is \$414,600.

**Outside electrician expense in the rate year (Account 53615 – Repairs Process Equipment):** NBC increased the services of an outside contractor for electrical services on an as needed basis in April 2023. Because this is a recent change, NBC does not have much experience upon which to base rate year expense for these services. The vendor is providing the invoices by facility (Field's Point and Bucklin Point) and the invoices are grouped for payment. NBC has already spent \$20,096.85 and there are 34 work orders outstanding (See Schedules 8G and 8H Supp.). Based on the limited information available (one month), NBC projects annual expenditures for outside electrical contractors of 301,452.75 in Account 53615 – Repairs Process Equipment (S/L one month of \$20,096 plus 25%). NBC also backed out the FY 2022 expense of \$64,128 for the outside electrical contractor. When this is applied against the reduction in salary and benefits for the 4.54 electrician positions, this is an overall net reduction in the rate year of \$177,276.

#### **NBC REVISED REBUTTAL POSITION**

NBC prepared a revised Rebuttal Position for salaries and wages based on NBC's analysis in its original (revised) response to Div. 8-1 and this supplemental response. Under this revised position, NBC would limit the Non-Union increase to 2.5% and use the revised rate year FTEs. NBC would also keep the same contracted and step increases for Union employees, and incorporate the analysis related to the eliminated electrician positions and outside electrical contractor work, NBC revised position results in a rebuttal rate year increase of \$412,103. (See Schedule 8B – Revised Rebuttal)

**Prepared by:** James McCaughey, Cassandra Bennett and Leah Foster
