**RE: Docket No. 23-37-EL – The Narragansett Electric Company d/b/a  
Rhode Island Energy’s Petition for Acceleration of a System Modification  
Due to Distributed Generation Project – Tiverton Project  
Joint Rebuttal Testimony – Corrected Page 10**

Dear Ms. Massaro:

On behalf of The Narragansett Electric Company d/b/a Rhode Island Energy (the “Company”), enclosed please find a corrected Page 10 of 22 of the Company’s joint pre-filed rebuttal testimony of Eric Wiesner and Ryan Constable in the above-referenced docket.

The joint rebuttal testimony was filed on May 7, 2024. The joint rebuttal testimony contains one correction. On Page 10 of 22 of the testimony, line 2, it should say “one year” as opposed to “two years.” See below for redlined corrected sentence:

1. The Tiverton Area Study was started during the Impact Study process, approximately ~~two years~~ one year after start, and prior to Interconnection Services Agreement (“ISA”) execution.

Thank you for your attention to this filing. If you have any questions, please contact me at 401-784-4263.

Sincerely,

A handwritten signature in blue ink, appearing to read "Andrew S. Marcaccio".

Andrew S. Marcaccio

Enclosure

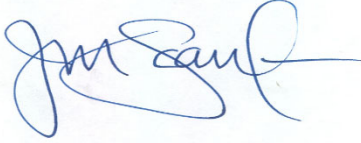

cc: Docket No. 23-37-EL Service List

- 1           1. The Tiverton Area Study was started during the Impact Study process, approximately  
2           ~~two years~~one year after start, and prior to Interconnection Services Agreement  
3           (“ISA”) execution.
- 4           2. The Tiverton Area Study substantially finished prior to the execution of the first  
5           version of the ISA.
- 6           3. The Tiverton Area Study identified a number of system issues with variable timing  
7           from immediate to forecasted.
- 8           4. Regardless of system issue timelines, the Study recommendation must consider  
9           regulatory and practical project execution timelines.
- 10          5. Considering regulatory and practical project execution timelines, the Study  
11          recommendation would have started near DG interconnection finish and the Study  
12          recommendation would have finished within five years of the DG interconnection  
13          finish.
- 14          6. The system and customers will benefit from electrical facilities installed by the  
15          Tiverton Project well within five years from interconnection.
- 16

Certificate of Service

I hereby certify that a copy of the cover letter and any materials accompanying this certificate was electronically transmitted to the individuals listed below.

The paper copies of this filing are being hand delivered to the Rhode Island Public Utilities Commission and to the Rhode Island Division of Public Utilities and Carriers.
